Distribution Solutions & Enterprise Resource Planning

Wholesale Distributors often find themselves squeezed between increasing customer demands, competitive pressures, and the accelerating spread of manufacturers across the globe. Tight margins and the high cost of excess inventory make cost control and efficiency critical; especially for small to midsize companies that can not afford to make mistakes.

By implementing the "Award-Winning" Microsoft Dynamics NAV ("Navision") ERP System, customers are able to reduce their cost by streamlining their inventory management processes. The collection and use of accurate inventory data in "Real Time" improves efficiencies & the bottom line.

- Access to "Real Time" Business Intelligence
- Improve Inventory Management
- Streamline the Supply Chain Process
- Integrated Financial Management
- Deliver Outstanding Customer Service
- Robust Reporting Capabilities
- Areas of Expertise Include EDI, Bar coding, and Wireless Warehouse Solutions
- Automated and Integrated Packing & Shipping
- eCommerce Solutions for Salesperson and Customer Self-Service Access
- Business Partner and Employee Portals
- Streamline Business Operations
- Advanced Forecasting & Procurement
- "User Friendly" Interface
- Sales and CRM
- Executive Dashboard
- Relationship Management
- Mobile Sales and Service
- And Much More!

Warehouse Management Systems (WMS)

Automate your Warehouse by utilizing Accellos Warehouse Management Systems (WMS) to find, pick and pack inventory in the most efficient manner possible. This means that you will be shipping the right items, in the right cartons, to the right customers, on time, every time.

Accellos WMS offers a "Feature Rich" solution to automate, streamline and verify all of your in-warehouse processes. From the receiving dock to the shipping dock, Accellos WMS tracks every movement of stock within the warehouse.

- Reduce Cost
- Boost Productivity
- Shorten Fulfillment Times
- Increase Customer Service Levels
- Establish 99.9% Picking Accuracy
- Seamless Integration with Many Systems
- View Your Inventory in "Real Time"
- Dramatically Decrease Shipping Errors
- Powerful, Scalable and Flexible
- Radio Frequency (RF) Wireless Devices
- And much more!

Voice Over IP (VoIP) Phone

By utilizing today's technology and upgrading your phone system, you could save money while gaining more robust phone features.

- Follow Me (calls forwarded to your cell phone)
- Email Message Notification
- Web-Based Access
- Soft Phone (access your phone via computer)
- Plus Many More Features
